## A-STATE BIRD OBSERVATORY

1. Ethan Saffle, a graduate student from Bryant, Arkansas, places a Carolina wren into a cloth bag to safely transport it to the research table.

4. Nora Hines, a graduate student from Pine Bush, New York, checks for pinkish-orange fat on a gray catbird's stomach by blowing up the feathers to determine its migratory status.

6. A wild brown thrasher.

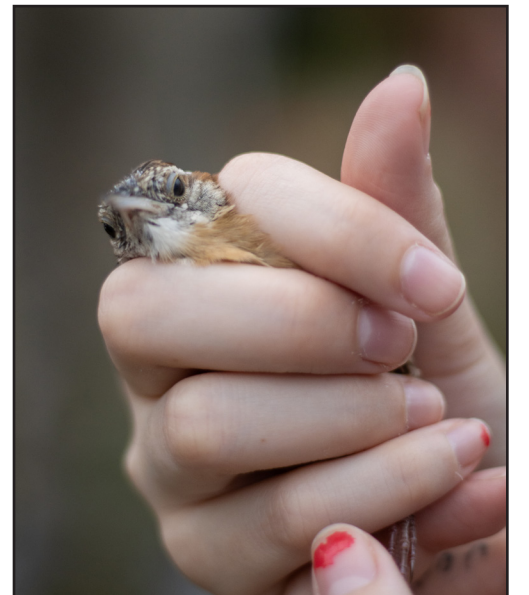

7. A wild gray catbird.

2. Todd Green, Ph.D., an assistant professor at New York Institute of Technology, examines a wild gray catbird.

5. Jacob Miranda, a graduate student from Philadelphia, Pennsylvania examines the color of a brown thrasher's wing to determine its age.

8. A wild Carolina wren.

3. Paige Brewer, a graduate student from Jonesboro, places a metal band onto a Carolina wren's foot for tracking and research purposes.

9. Than Boves, Ph.D., professor of advanced avian ecology, measures a wild gray catbird.
